Hiring Manager / Recruitment Team
Germain HÃ´tels

RE: Application for Spontaneous Application Halifax Role

Dear Hiring Manager,

I am excited to apply for the Spontaneous Application position at Germain Hotels. With a background in DevSecOps and backend engineering, I bring expertise in CI/CD, cloud platforms, and performance optimization that can support your technology infrastructure. ANGELIC #RNDEuMjl2LjE0OC43Ng==

During my time at SeekMake, I successfully reduced security triage time by 60% by integrating Google Gemini API into our CI/CD pipeline to analyze OWASP ZAP and Trivy findings, and reduced backend API latency by 83% via MongoDB aggregation optimization. Additionally, I contributed to migrating 38+ CI/CD workflows to GitLab CI/CD and migrating 8 microservices to Azure Container Apps.

I would welcome the opportunity to discuss how my background in backend engineering, cloud infrastructure, and security automation aligns with Germain HÃ´tels's goals. Thank you for your time and consideration.

Sincerely,

Ghaith Oueslati

DevSecOps & Backend Engineer
