Hiring Manager / Recruitment Team
TechCorp Berlin

RE: Application for DevSecOps Engineer Role

Dear Hiring Manager,

I am writing to express my enthusiastic interest in the DevSecOps Engineer role at TechCorp Berlin. With hands-on experience in DevSecOps automation, microservice optimization, and AI tool integration at SeekMake, I am confident in my ability to bring immediate technical value to your team.

During my time at SeekMake, I successfully reduced security triage time by 60% by integrating Google Gemini API into our CI/CD pipeline to analyze OWASP ZAP and Trivy findings, and reduced backend API latency by 83% via MongoDB aggregation optimization. Additionally, I contributed to migrating 38+ CI/CD workflows to GitLab CI/CD and migrating 8 microservices to Azure Container Apps.

I would welcome the opportunity to discuss how my background in backend engineering, cloud infrastructure, and security automation aligns with TechCorp Berlin's goals. Thank you for your time and consideration.

Sincerely,

Ghaith Oueslati

DevSecOps & Backend Engineer
